

Generative AI Bootcamp 2026 and Other Services

Transform Your Future with the Learn AI Bootcamp

Featuring Top Industry Tools!

Step into our **February 2026 AI Bootcamp** and spend eight focused weeks turning big AI ideas into hands-on skill. You'll mix bite-sized theory with real-world practice on the very tools shaping today's tech scene. Choose the package that suits your needs and join us in a powerful journey exploring the Generative and Next-Gen AI Tools that can practically improve your personal and professional life.

Module Highlights:

Module 1 (Intro): Introduction to Generative and Next-Generation AI

Cut through the buzz and see what AI actually does in real life. You'll map out the terrain, understand why everyone's talking about it, and start experimenting - right away - with a mix of free and premium tools that can boost your work and life.

Module 2 (Basics): Large Language Models and ChatGPT

Meet the headline-grabbers up close. You'll discover why ChatGPT became the fastest-growing tech in history, learn to prompt it like a pro, and fold a range of cost-free power tools into your daily routine.

Module 3 (Basics): Image Generation and Computer Vision

Turn words into visuals with Ideogram, Midjourney, and the built-in generators in ChatGPT and Gemini. Then step behind the curtain to see how computer-vision features let AI recognise and interpret what it "sees"—a glimpse of the future of human-AI interaction.

Module 4 (Core): Advanced ChatGPT and Basic Automation

Go beyond simple chats. We'll unpack premium ChatGPT features, show you how to build custom AI helpers, and help you decide if subscription upgrades are worth the spend before you hit "pay."

Module 5 (Core): Speech-to-Text and Speech Generation

Watch spoken words become crisp text, for advanced note taking and AI powered meetings. Then text turn back into realistic voices, sound effects, and even music. You'll try the latest natural-language interfaces and pick up essential tips for spotting (and stopping) audio fraud.

Module 6 (Advanced): AI Video Generation and Video Editing

Get hands-on with both free and paid video generators to create polished clips without a studio. You'll be on the leading edge of a visual revolution that's transforming how we share ideas and stories.

Module 7 (Advanced): Multi-Modal Tools and Advanced Automation

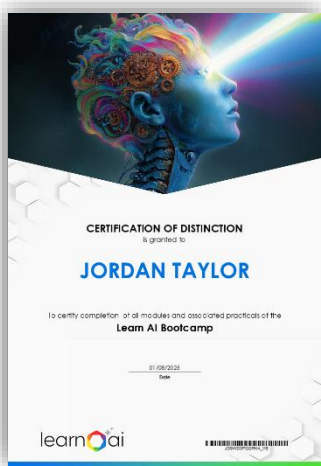

Now that you know the parts, it's time to connect them. Learn to blend text, speech, images, video, files, and integrations into seamless workflows and advanced automations that run across your favourite platforms.

Module 8 (Review): Final Project Presentations and Moving Forward

Bring everything together in a practical capstone project that showcases the best tools you've mastered. Present your work, gather feedback, and leave with a clear roadmap for your next AI milestones.

What's Included	Packages			
	Digital Collection	Core	Guided (most popular)	Exec

Price (per delegate)	R 3 950	R 7 950	R 11 950	R 23 950

Course Certification

Course certificates are offered for all delegates who complete the entire Bootcamp, with three levels of achievement based on several participation and tool usage assessments:

- A. Attendance**
- B. Competence**
- C. Distinction**

Not yet currently recognised for qualifications or CPD points.

Flexible Schedule Options for your Home Group

(one Module completed per week – South African Standard Time):

- Saturday Mornings (9:00 to 13:00) – Starts Saturday 21st February 2025
- Midweek Evenings (19:00 to 21:00) – Starts Tuesday 24th February 2025

Included Value:

- **Accessible** - All Module are recorded and distributed within 24 hours of the Module being completed for future reference and review.
- **Comprehensive** - Each module is delivered with a companion student document that contains, important links, slides, AI-generated transcripts and summaries, access to knowledge repositories on Notebook LM as well as other important resources.
- **Flexible** - Attendees are welcome to attend other groups if you have a conflicting appointment during your normal home group Module (or if you would like to refresh yourself immediately on a specific topic).

Why Choose the Learn AI Generative and Next Gen Artificial Intelligence Bootcamp?

We're not paid by any of the AI companies to unfairly recommend their tools. We'll help you discover what works for you and help you to start using them immediately. You'll leave with a robust portfolio of skills, ready to tackle AI challenges and opportunities without getting caught up in overwhelm and hype. Collaboration between delegates is highly encouraged and you'll be part of a community of like-minded and equally knowledgeable individuals, any of which could be your future employer, employee, client, supplier or business partner.

Guaranteed Freshness! It's important to us that all Learn AI Bootcamp Graduates stay up to date. For this reason at no extra cost, you may repeat Modules in future Bootcamps, or even the entire 8-week programme for at least 12 months after registration. At no extra cost you also get complimentary attendance at all future Power Hours (see below)

Enrol Today for a more Independent and Powerful Tomorrow! Don't let the AI revolution happen without your participation. Take charge of your future by joining our next cohort. Gain invaluable insights, hands-on experience with major AI tools, and connect with industry peers.

Reach out to us at [+27-83-780-3777](tel:+27-83-780-3777) or bootcamp@learn-ai.co.za to reserve your spot.

Embrace the AI era and be at the forefront of innovation. We can't wait to help you start this exciting journey!

"The opportunity of a lifetime must be seized within the lifetime of the opportunity"
- Leonard Ravenhill

Some feedback from our most recent graduates:

"I started out anxious about AI, but the Bootcamp's hands-on guidance took away my stress and opened a whole new world."

- Anina V (10/10)

"I feel like a new person - AI has become a fresh strength, opening a whole field of knowledge and deeper thinking about the human-AI relationship."

- Thelma P (10/10)

"Eight incredible weeks that blew my mind. Outstanding facilitators, rich networking, and knowledge sharing I never thought possible."

- Abigail V (10/10)

"This Bootcamp turned me from curious to 'AI-first'. Brad's teaching, Mel's insights, and watching classmates grow were truly inspiring."

- Kevin S (10/10)

"A friendly, non-stressful way to master AI tools while connecting with like-minded people."

- Shanel M (10/10)

Other AI Courses and Services:

Power Hour Sessions

In a condensed, focused sessions we cover the major AI developments since the last Power Hour. If there is an interesting new tool development or release, we will do a deep dive on the tool during the session to give attendees a feel for how to use it. This is **complementary for the AI Bootcamp Graduates** to stay up to date.

One on One AI Executive Coaching (Course Content Only)

For busy executives who want to focus on their specific area of interest or requirements for their business. You can subscribe to focused 60-minute Module or a recurring weekly slot.

Per Hour AI Strategy Consulting

If you would like a custom consulting engagement to help understand what the most relevant tools for you is to focus on right now and assistance in implementing immediately then per hour AI Consulting is available with a senior instructor.

Various Deep Dive Modules

For our AI Bootcamp Graduates we offer various deep dive modules based on interest and industry developments. To date we have offered Certification Masterclasses for those wishing to achieve internationally recognised certifications from Google, Microsoft, Amazon and the like.

Email info@learn-ai.co.za to subscribe to the Masterclass notifications when they're scheduled.

Executive or Board Awareness Module

Up to 2 hour focused Module with executive teams to help them to understand the ramifications of Artificial Intelligence for their specific company and industry. This should help organisation leaders understand the current state of the technology and what they should be doing about it.

Corporate AI Awareness Module (up to 200 people)

Up to 90-minute session to bring staff up to speed with AI developments and how the tools can be practically used in their workspace.

Custom in house Training and AI Acceleration Projects

For companies wishing to accelerate their staff adoption of the latest AI tools and incorporate the mature tools into their daily workflow. Projects are co-created and designed for each organisation and key milestones and goals for the project are set out and agreed upfront.

Scoped and priced per project.
